

Mr. Skerrett

# GRADE 11 BIOLOGY, UNIVERSITY BASIC UNIT OUTLINE

## UNIT 2. CELLULAR BIOLOGY

**REFERENCE TEXT:** Biology 11. Nelson, 2002

1. Ch. 1 – Cell Biology.
2. Ch. 2 – Chemistry of Life.

## GENERAL GUIDELINES FOR EVALUATION

### QUIZZES

- there will be a series of short quiz during each unit.

### LABS

- there will be several short labs done in class
- the lab assignments will involve answering a series of short questions pertaining to the observations you have made.
- the formal lab report(s) will involve a much more thorough and independent analysis of the procedures and data collected or observed.

### NOTES AND HOMEWORK

- occasionally I may check your notes for their completeness, accuracy and neatness.

### UNIT CULMINATING ACTIVITY

- at the end of each unit a small group or independent activity regarding the material will be assigned.
- this will involve independent research.

### PROJECTS

- independent projects or activities may be assigned during the course of the unit.

### UNIT TEST

- this end of the unit test will cover all material taught in class.
